

MENU Solution Update

Q3 2023

A PAR Technology Company

Hello,

As part of our commitment to excellence, we are excited to announce our latest wave of product enhancements that you can expect this quarter. They are designed to help your restaurant provide customers with an even better experience, while optimizing resources.

What's coming up this quarter?

Scheduled Orders

Streamline your operations and sales forecasting by accepting orders up to 30 days in advance! Customers can now plan their meals well ahead of time, ensuring a delightful dining experience with their pre-ordered meals.

[Read more](#)

Dynamic Pricing

Inflate prices in bulk using either a percentage or fixed amount, allowing for more operational efficiency, speed and better margins for your business.

Enhanced Menu Loading

Experience quicker mobile menu loading times with our Enhanced Menu Loading feature. Elevate your customer experience and minimize drop-offs!

Integrations on the horizon:

Toast
(POS)

Sicom
(POS)

Mercado Pago
(Payment -
Kiosk)

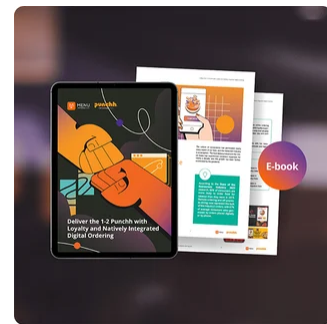

CCV
(Payment -
Kiosk)

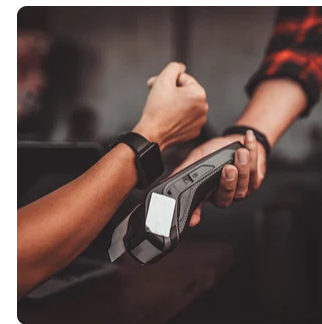

Make sure to click [Follow](#) on the Release Notes page to get immediately notified about latest updates.
