MENU Solution Update

Spring 2023

A **PAR Technology** Company

Hello,

At MENU, we believe that running a restaurant business should be a breeze! 🍵 That's why we've been pushing the boundaries of innovation this year. 🚀 From slick new features to game-changing improvements, we're constantly raising the bar to make sure that you and your customers have the ultimate experience. 📈
We are always putting our customers first and staying ahead of the game, which is why we're thrilled to share our latest and greatest developments with you. 🙌

We are proud to have completed the following integrations this year:

PAR Pay (Payment - Ecommerce)	**Evertec** (Payment - Ecommerce)	**CCV** (Payment - Ecommerce)	**NCR** (POS- BSL integration)

|		
Punchh (Loyalty)	**DoorDash** (Delivery)	**GrubHub** (Delivery)

What's coming up this spring?

Stay tuned to learn what's cooking in MENU!

Data Pipelines
Ready to unleash the power of your data? Our latest feature lets you export raw platform data straight to your data warehouse on AWS or Azure. Discover new insights and unleash your business's full potential today!
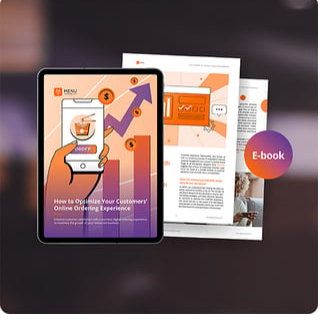

Ordering APIs
Take your ordering experience to the next level with our Ordering APIs. Unlock the power of MENU's cutting-edge commerce capabilities - from menu and order management to POS and payment integration, and even Dispatch! Get ready to create an ordering experience that's as unique as your business.

Phone number authentication
Want to give your customers the flexibility they deserve? With our platform, you get to decide whether or not to require phone number registration, and whether you want to offer one-time SMS verification. This puts you in control of the customer experience and helps you build trust.
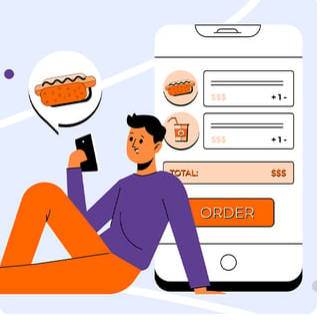

Integrations coming up soon:

Nash (Dispatch)	**Google Food Ordering** (Delivery)	**Toast** (POS)	**Simphony GEN2 Loyalty** (POS)

|		
PAR Pay (Payment - Kiosk)	**Evertec** (Payment - Kiosk)	**Mercado Pago** (Payment - Kiosk)
